FINAL REFLECTIVE REPORT

Blog 07 Task

Deadline for completion of task: *Monday 17/01/22 23:30*

Reading
Reflective Writing: DIEP. A framework. PDF available: http://bit.ly/2xeVRRm. [Accessed 13/12/21].

Task
Your final blog task is to write a reflective report for the module (1500 words (+/- 5%). This must be the last post you make to your blog before the start of semester 2. It must have a post time and date before the deadline below and it must be the first post the viewer sees when visiting your blog.

You are also required to upload a .pdf version of your report to Turnitin on Blackboard - with the same deadline.

Use the DIEP approach to reflect on how you feel you have performed over the course of the module. For example: What would you do differently next time? With more time what (if any) improvements would you make to your project? Be specific about areas of your design practice you feel you need to improve going forward? What are your strengths and weaknesses? Make sure you include images and examples in the report and try to contextualise your writing by reference to some of the blog tasks, readings and viewings.
